

# **IRRICRUISER MIDI PLUS**

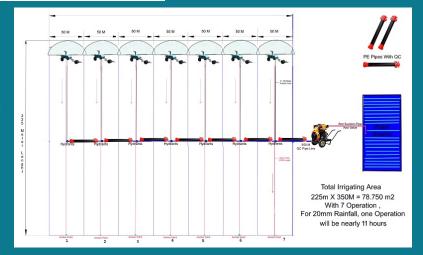

### **FEATURES:**

- Hot dip galvanised chassis & Aluminium frame
- Patented travel shut-off mechanism
- High efficient turbine
- Single speed gear box
- Speed control valve, precise speed control between 10 m/h and 70 m/h
- Compact design, easy to use and store
- Emergency stop mechanism
- PTO driven integrated hose reel
- Portable
- Excellent Water Uniformity
- Long Life & Simple Maintenance
- Easy and safe operation
- Very low labour requirement
- Cable length: 200 m
- Lay Flat Hose : 2" 100m Premium Drag Hose
- Designed in Australia, made in Turkey

Working Pressure: 45 - 75 psi Water Flow: 150 - 500 l/min Effective Spray Width: 40 - 70 m Sprinkler: DuCaR Jet 50

#### **APPLICATIONS:**

- Agriculture: Small crop, pasture, or dairy farms
- Turf Irrigation: Golf, race/horse courses, playing/sports fields and gardens
- Dust Control: Mining and construction sites

# **IRRICRUISER MIDI PLUS**

## New Generation Du CaR Irri Cruiser Aluminium Turbine System

- The turbine provides the high torque to pull the DuCaR IrriCuriser & Hose along the cable in tough conditions.
- DuCaR IrriCruiser MIDI PLUS develops the power as a result of water flow, not pressure. Therefore it can be operated at low pressures.
- DuCaR IrriCruiser MIDI PLUS allows you to adjust a wide range of travel speeds to suit your particular crop water requirements, so you can save a lot of energy.
- The volume of water entering the turbine is controlled by a diverter valve, which when used with the three speed gearbox, provides the DuCaR IrriCruiser with infinite range of travel speeds to suit different crop water requirements.
- The turbine's RPM and travelling speed is read on accurate digital tachometers.
- No Filters required for the turbine drive.
- No exhaust water from the turbine drive, all water is distributed through the sprinkler.
